- Wall-mount and desktop design for indoor unit

Video / Audio

- Maximum resolution 1280 x 720
- Acoustic Echo Cancellation on speaker path
- Adjustable brightness, contrast and volume settings
- Two-way Communication

Network and Configuration

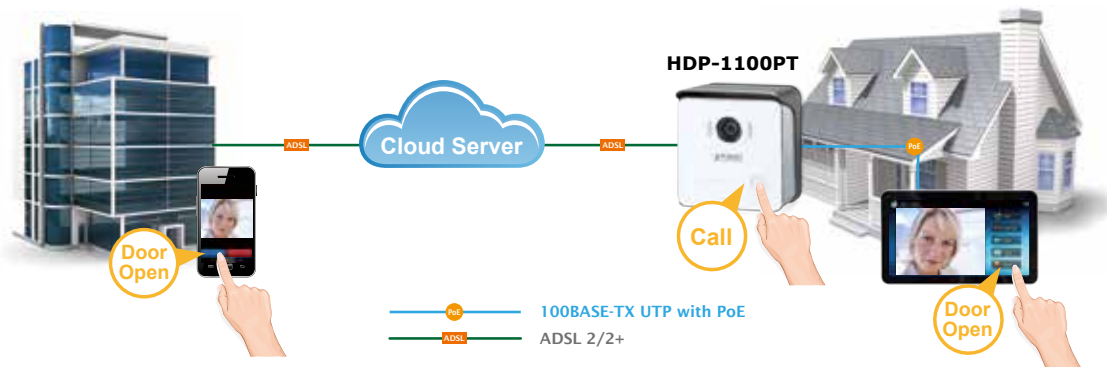

- Compliant with IEEE 802.3af PoE interface for flexible deployment
- Compatible with most modern IP PBX systems
- Standard SIP protocol

Easy Installation & Management

- Hands-free intercommunication
- Have peace of mind from being able to see, hear and speak to your visitors before opening the door
- Conveniently unlock the door for visitors without having to go to it
- App and control pad alerts for any situation

Easy Communication via Intercom

The two-way intercom function provided by the HDP-1100PT allows you to see the visitors and also communicate with them. The HDP-1100PT includes inputs/outputs for connecting to external devices such as door lock or door sensors. When the visitors press the call button at your door, you can press the unlock button on your mobile phone or PLANET HTS-1000P touch screen control pad to open the door for your visitors.

AEC (Acoustic Echo Cancellation)

Acoustic Echo Cancellation (AEC) technology is adopted in PLANET's HDP-1100PT Door Phone and HTS-1000P touch screen control pad to enable users to minimize the voice sound signal distortion shown in the diagram below, thus guaranteeing the best-in-class sound quality.

Finding the Door Phone via Smart

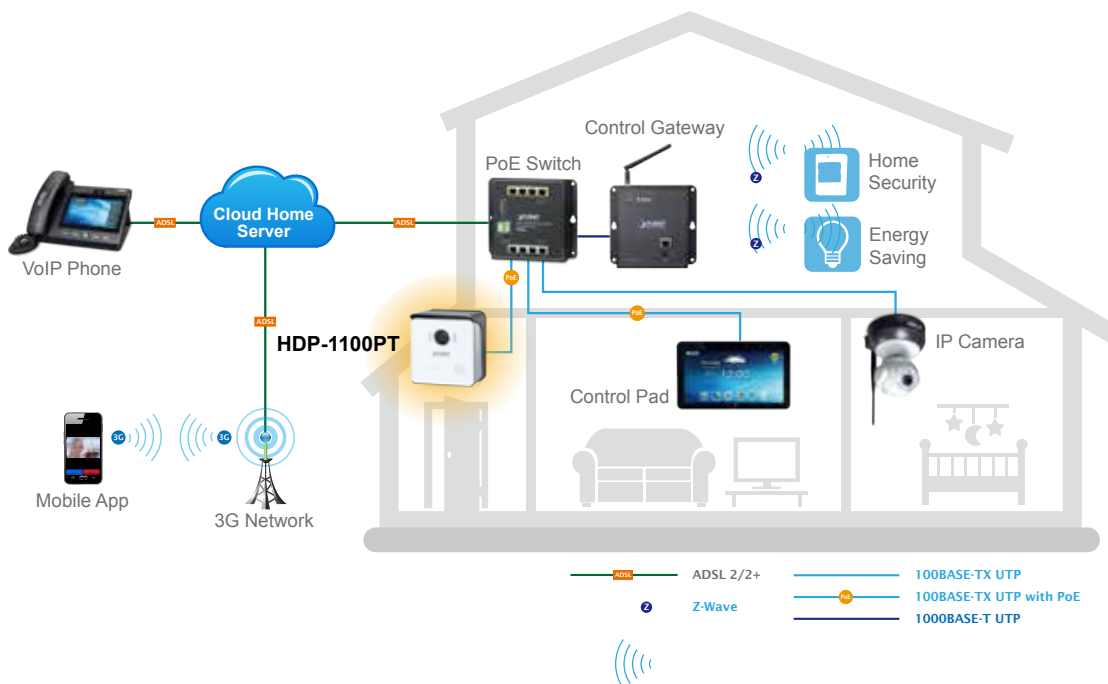

PLANET Smart Discovery is a simple, freely available application for locating intercoms from the IP family in the network. After searching the network, the application shows the device name, firmware version and IP address of all intercoms found on a chart. This simplifies the administration and installation of intercom systems. Simply run the easy-to-use software to get immediate results.

Applications

The HDP-1100PT supports 802.3af PoE interface without worrying the electric source. It supports two-way voice communication and remote door release function, which is applicable via any iOS and Android mobile phone and the HTS-1000P touch screen control pad. With the Wi-Fi/3G/4G connection, intercom and door release can all be remotely controlled by your smart phone or tablet no matter what your location is, even you are away from home.

Additionally, the HDP-1100PT has an excellent interoperability using SIP standard VoIP signaling feature by interworking with IP PBX services and video phone.
